# EXHIBITION AUDIT

## ■ Overview

Exhibition Audit refers to objectively investigating / confirming the data reported by exhibition organizer on space, number of exhibitors and visitors based on standardized criteria, and releasing the result to the public.

Reliability of data and cross-comparison are necessary for exhibitor to better plan / organize their participation in the event and to accurately evaluate the performance of participation.

## ■ Purpose

### ▶ EXHIBITION IS OPPORTUNITY

Secure objective, reliable data and statistics on exhibitors and visitors to facilitate internationalization of Korean exhibitions.

### ▶ MARKETING PURPOSES FOR EXHIBITORS AND ORGANIZERS

Number of exhibitions continue to increase and their functions are complicating. Exhibitors pay enormous expense to participate in the events but have doubts on whether expected outcome is derived from the investment.

### ▶ RELIABLE DATA

Provide credible basis for potential participants of the exhibition to help them make accurate decision based on reliable and objective information of the exhibition.

### ▶ ENCOURAGE FAIR COMPETITION

Credible data on exhibition through Audit system encourages differentiation of exhibitions and competition among them; Audit system will result in creating fair environment for the market economy.
